

# **WORDPRESS**

## **DEVELOPMENT COURSE**

### **IN JAIPUR**

**15 Days Training for Website Creation & Customization**

## Course Overview

### Create Modern, Responsive Websites Using WordPress – No Coding Required

WordPress powers over 40% of websites globally – from personal blogs to business portals and e-commerce platforms. This **15-Day WordPress Development Course in Jaipur** by SkillUpgrades is designed for beginners who want to build beautiful, functional, and mobile-friendly websites without writing a single line of code.

You'll learn how to install and customize WordPress themes, use plugins for extended functionality, set up contact forms, optimize SEO, and manage content like a pro. Perfect for digital marketers, freelancers, and small business owners looking to create their own online presence.

## What You'll Learn

- WordPress installation & dashboard overview
- Choosing the right theme for your brand or business
- Customizing design with page builders (Elementor, WPBakery)
- Creating pages: Home, About, Services, Contact, Blog
